

TOMORROW'S TRAIN

tuning: cgdgbe

If we take this train straight ahead in time
We'll have to make some changes to make it down the line
We'll blow no smoke into a sky so clean
We'll burn no coal, no gasoline

CHORUS:

We'll run on the sun, fill our gas tank with rain
We'll ride on the wind when we ride on tomorrow's train

And we'll take no freight that we can't put back
And we'll leave no trace, no trash along the tracks
And we'll go with hope for our children's dreams
That the world they'll know will still be blue and green

CHORUS:

And in spite of all our sorrow for tomorrow, for tomorrow
When tomorrow comes a-calling
We'll say good morning
Good morning

We're standing at the station and the schedule is clear
Whatever train we came on, just one train goes on from here
And it's a joyful sound that every great-grandchild
At the next stop down, will make if we arrive

CHORUS:

And we'll carry the future in our hearts like a flame
Like a promise inside us when we ride on tomorrow's train
On tomorrow's train
