

BRAND NEW

standard tuning

She traveled here not long ago
Straight from the great unknown
And being from that land of dreams
She seems to glow

She has a lovely two-tooth smile
She's just barely two feet high
And words are still beyond her reach
She can't speak, but every day

CHORUS:

She'll say to you
The world, the world is new
And you'll look and you'll see it's true
The world is all brand new

She points at birdies in the sky
Waves at people passing by
And nearly everything she sees
She tries to eat

She makes you want to sing a silly tune
And dance a jig around the room
And when she giggles in your ear
You hear your heart laugh too

CHORUS:

So proclaim the news that the world
The world is new
Every day, every day it's true
The world is all brand new
